Work Experience

Skynox Tech Private Limited • UI/UX Designer

JULY 2020 – PRESENT, PUNJAB (PART TIME – REMOTE)

Communicated with clients in order to acquire a better grasp of the project. Research was conducted in order to improve the user experience. Created a low-fidelity design and was able to solve all of the difficulties, resulting in a high-fidelity design with design system. Monitor progress against the production timeline, send updates to the Design and Development Manager, and report any technical issues. Create outstanding user interfaces by collaborating with developers, product managers, QA, and marketing.
